Les créations d'Anna Charlotte Atelier commencent toujours par une esquisse réalisée à l'aquarelle ou un échantillon de tissage, ce qui apporte une valeur artistique à chaque tapis et textile. La création originale est adaptée à un plus grand format appelé "cartoon".

ATELIER

Anna Charlotte atelier only uses the best natural fibers and hand-spun yarns with excellent quality and strength and innovative green solutions from leftover yarns and fibers. The warp is either cotton, linen, hemp, or wool, and the weft is carefully selected and naturally dyed from the original recipes.

Anna Charlotte Atelier n'utilise que les meilleures fibres naturelles et fils filés à la main, d'excellente qualité et résistants ; ainsi que des solutions innovantes pour le recyclage des matériaux non utilisés. La chaîne est en coton, lin, chanvre ou laine et la trame est soigneusement réalisée à partir de fils teints selon des recettes originales.

MATERIALS

The colours created for Anna Charlotte Ateliers rugs are pure botanical plants picked from nourishing soil terroir. Natural dye's where each fiber becomes unique. From seeds, flowers, leaves, berries, stems, barks, and roots. Depending upon the season and selected part of the plant, some components may have more than one colour. Anna Charlotte Atelier can also provide customized colours for our bespoke rugs.

Les couleurs utilisées pour les tapis Anna Charlotte Atelier sont issues de plantes botaniques, cultivées sur un sol nourricier, véritable terroir. Des teintures naturelles qui confèrent à chaque fibre son caractère unique. A base de graines, fleurs, feuilles, baies, tiges, écorces et racines. Selon la saison et la partie sélectionnée de la plante, certains composants peuvent avoir plusieurs teintes. Anna Charlotte Atelier peut également créer des couleurs personnalisées pour des tapis sur-mesure.

THE WORD OF COLOURS

Textile artist and healer Anna Charlotte Rosenberg Bosten take us on an insightful journey into the world of colours. Her creative and spiritual life choices, together with her schooling in the Indian health system Ayurveda intuitively led her to a deeper understanding of both herself and our life here on earth.

She explains how – with greater insight into who we really are – we can consciously change our lives with the help of colour—a natural wealth we can effortlessly assign to ourselves and our surroundings. Listening more attentively to our intuition and heart, we can begin to live and communicate in harmony with our true self – our essence.

This beautiful book follows life's patterns and is filled with inspirational events and thoughtful insights, creatively enhanced by the stunning imagery of photographers Richard von Hofsten and Anne Nyblaeus, together in finely tuned collaboration with the congenial book designer Ehrling Braghfors.

Welcome to The Word of Colours ©

L'artiste textile et guérisseuse Anna Charlotte Rosenberg Bosten nous emmène dans un voyage perspicace dans le monde des couleurs.

Ses choix de vie créatifs et spirituels, ainsi que sa scolarité dans le système de santé indien Ayurveda l'ont intuitivement amenée à une compréhension plus profonde d'elle-même et de notre vie ici sur terre.

Elle explique comment – avec une meilleure compréhension de qui nous sommes vraiment – nous pouvons consciemment changer nos vies à l'aide de la couleur. Une richesse naturelle que nous pouvons facilement attribuer à nous-mêmes et à notre environnement.

En écoutant plus attentivement notre intuition et notre cœur, nous pouvons commencer à vivre et à communiquer en harmonie avec notre vrai moi – notre essence.

Ce beau livre suit les modèles de la vie remplis d'événements inspirants et d'idées réfléchies. Renforcé de manière créative par les images époustouflantes des photographes Richard von Hofsten et Anne Nyblaeus, en collaboration avec le sympathique graphiste de livres Ehrling Braghfors.
